

SUN

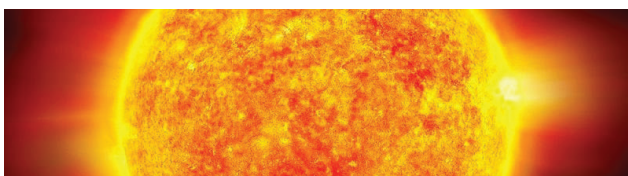

DISCOVER ANCIENT SUNDIALS IN *ASTRONOMY IN CULTURE*

Go back in time and discover one of the largest and most significant collections of scientific instruments on planet Earth. Peruse *Astronomy in Culture* and you will see sundials made of different materials and various designs.

SEE CHICAGO'S SKIES IN *NIGHT SKY LIVE!*

What wonders appear in the late-evening and pre-dawn sky? From sunrise to sunset you will experience the breathtaking views of our Universe in *Night Sky Live!*, presented in the Definiti Space Theater.

TRACK STORMS ON THE SUN WITH *SOLAR STORMWATCH*

Storms on the Sun release charged particles that travel up to several million miles per hour and can potentially harm astronauts exploring space. Help scientists spot explosions on the Sun in the citizen science project solarstormwatch.com.
